

SHORT STORY COLLECTION

THE
CARACAL

Almost never seen – the Caracal’s enigmatic presence is always felt. This beautiful cat known as the Rooikat (Red Cat), has ‘moved’ back to the Neethlingshof estate. In an attempt to restore Neethlingshof’s natural biosphere, islands of Renosterveld have been re-established amongst the vines to offer these fine creatures place of shelter. Just another magical step towards creating a perfectly balanced ecosystem on the estate.

CABERNET SAUVIGNON (45%) | MERLOT (24%) PETIT VERDOT (14%) | CABERNET FRANC (9%) | MALBEC (8%) | **2018**

THE WINEMAKING

The grapes were harvested by hand at 24°- 26°Balling during late February till March. After destalking and crushing, the mash was fermented using a selected pure yeast culture in rotation tanks at 25° to 29°C. Fermentation took seven to nine days to complete. After malolactic fermentation the wines were left on the lees and next matured in 300-liter barrels consisting of a combination of new French oak and second- and third-fill French oak barrels for a period of 12 months. The components were matured separately before careful construction of the final blend.

WINEMAKER’S COMMENTS

Colour: Deep Ruby

Aroma: Pronounced aromas of blueberries, blackcurrant, toffee apple and a hint of cedar.

Palate: An elegant yet full-bodied dry red wine which exhibits flavours of black plum, blackcurrant, sour cherry and liquorish. Well-structured with a long finish and firm tannins.

Maturation Potential: Ready to enjoy now or can be matured for another decade. Will open up even more with careful cellaring.

FOOD PAIRING

Excellent enjoyed with meat dishes such as Beef Brisket or Kudu Carpaccio. Great match with cheese, such as Swiss cheese or white cheddar, or vegetables dishes like Green Bean Casserole or Ratatouille Tart.

CHEMICAL ANALYSIS

Alcohol:	14 % by volume
Residual sugar:	2.8 g/l
Total acidity:	5.4 g/l
Total extract:	30.5 g/l
pH:	3.66
Total Sulphur:	98 mg/l

*Strict VEGAN guidelines were adhered to during the entire farming and winemaking process
