

NEETHLINGSHOF

ESTATE WINE

ESTATE RANGE

CABERNET SAUVIGNON | 2020

THE VINEYARDS

The west-facing vineyards were planted in 2011 and grow in decomposed granite and Table Mountain sandstone soils on the Estate, at altitudes of around 224m above sea level. The vines are grafted onto nematode-resistant rootstocks Richter 110 and trellised on a six-wire vertical fence system.

THE WINEMAKING

The grapes were harvested at 25.6° Balling during late March to mid-April. After destalking and crushing, the mash was fermented using a selected, pure yeast culture. After malolactic fermentation, the wine was matured for a period of 22 months in predominately French oak barrels. New oak barrels were used for 45% of the wine with the balance matured in second- and third-fill barrels. First bottling took place on 8 February 2023, 8400 bottles.

WINEMAKER'S COMMENTS

Colour: Deep ruby

Aroma: Expressive and pure bouquet with aromas of blackberries and with scents of fynbos and cedar.

Palate: Rich flavours of mulberry, blackcherry and prune, complimented by vanilla and subtle spices and liquorice offered by oak. Well-structured with dry, rich tannins.

Maturation potential: The wine is ready to drink now but will mature for a further 5 to 10 years.

FOOD PAIRING

Enjoy on its own or with roast lamb or beef, game fish, spicy quinoa salad, stuffed aubergine or roasted vegetables.

CHEMICAL ANALYSIS

Alcohol:	14.52 % by volume
Residual sugar:	3.3 g/l
Volatile acidity:	0.58 g/l
pH:	3.66
Total Sulphur:	70 mg/l

*Strict VEGAN guidelines were adhered to during the entire farming and winemaking process
